

Exercise for ATMS 211, to prepare for the geography quiz. 3 January 2011

Label the map with the features listed below. Consult atlases, encyclopedias, or whatever you need to locate all these features.

1. All continents and oceans.

2. The Equator. Then make these lists:

(a) Which continents are entirely in the Southern Hemisphere?

(b) Which continents are entirely in the Northern Hemisphere?

3. Mountain ranges:

Rockies

Andes

Himalaya

Alps

Atlas

Great Dividing Range

Urals

4. Deserts:

Mexican

Atacama

Sahara

Arabian

Kalahari

Gobi

Great Sandy Desert

5. Rivers (sketch the course approximately, but locate the mouth accurately) :

Mississippi

Ganges

Amazon

Nile

Yangtze

Congo

6. Miscellaneous:

Gulf Stream

Java

Greenland

Red Sea

India

7. What fraction of the Earth's surface is occupied by the U.S. (including Alaska)?
